SAFETY DATA SHEET

SECTION 1 – PRODUCT AND COMPANY IDENTIFICATION

Product Identifier: Henry® 622 VinylBond™ Premium High Strength Vinyl Flooring Adhesive
Product ID No.: 70038502
Trade Name/Synonyms: Henry 622
Material Use: Adhesive for installation of interior vinyl flooring.
Uses Advised Against: No information available

Manufacturer’s name and address:

ARDEX L.P.
400 Ardex Park Drive
Aliquippa, PA 15001 USA

Information Telephone No.: (724) 203-8000
Website Address: http://www.wwhenry.com
24 Hr Emergency Telephone #: CHEM-TEL: 1-800-255-3924 OR 1-813-248-0585 (call collect)

SECTION 2 – HAZARDS IDENTIFICATION

GHS Classification per 29 CFR 1910.1200 (OSHA HCS 2012) and HPR (WHMIS 2015)
Skin corrosion/irritation, Category 2 (Irritant)
Serious eye damage/eye irritation, Category 2B (Irritant).

GHS Pictograms

Signal Word
Warning.

Hazard Statements
Causes skin irritation.
Causes eye irritation.

Precautionary Statements
Wash hands and exposed skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Take off contaminated clothing and wash before reuse. Dispose of contents/container in accordance with federal, state, and local laws. Do not allow product to enter drains.

Hazards Not Otherwise Classified
None

% With Unknown Acute Toxicity
Up to 15% by weight of this product is comprised of ingredients with unknown acute toxicity.

SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS
The exact percentages of the ingredients have been withheld by the manufacturer as trade secrets.

### SECTION 4 – FIRST AID MEASURES

**General**
Call a Poison Center or doctor if you feel unwell.

**Inhalation**
If inhaled, move person to fresh air and keep at rest in a position comfortable for breathing. If breathing difficulties persist, seek immediate medical attention/advice.

**Skin contact**
Remove/Take off immediately all contaminated clothing. Flush affected skin with gently flowing lukewarm water for at least 20 minutes. If rash or irritation persists, seek medical attention/advice.

**Eye contact**
Immediately flush eyes thoroughly with running water for several minutes. Remove contact lenses if present and easy to remove. Continue rinsing. Seek medical attention/advice.

**Ingestion**
Never give anything by mouth to an unconscious person. Rinse mouth with water. Do NOT induce vomiting. Seek immediate medical attention/advice.

**Notes for Physician**
Treat symptomatically.

**Signs and symptoms of short-term (acute) exposure**

- **Inhalation**: May cause minor, temporary irritation to respiratory tract. Symptoms may include coughing.
- **Skin**: May cause skin irritation. Symptoms may include redness and itching
- **Eyes**: Causes irritation to eyes. Symptoms may include redness, itching, blurred vision or pain.
- **Ingestion**: Symptoms such as gastric pain, nausea, vomiting, and diarrhea may occur.

**Effects of long-term (chronic) exposure**
None known.

**Indication of need for immediate medical attention or special treatment**
Difficulty breathing persists after removing the person to fresh air. Any exposure to the eye which causes irritation. Ingestion.

### SECTION 5 – FIRE FIGHTING MEASURES

**Suitable extinguishing media**
Carbon dioxide, dry chemical powder, alcohol resistant foam or water fog.

**Unsuitable extinguishing media**
Water jet may spread the fire.

**Hazardous combustion products**
Carbon monoxide, carbon dioxide, and other toxic vapors and gases which are common to thermal degradation of organic compounds.

**Special fire-fighting procedures/equipment**
Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode. Move containers from fire area if safe to do so. Water spray may be useful in cooling equipment exposed to heat and flame. After fires have been extinguished, carefully clean all equipment and surfaces exposed to fumes.

**Environmental precautions**
Do not allow material to enter drains or contaminate ground water system.

**Fire hazards/conditions of flammability**
Not flammable under normal conditions of use. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure.

**Flammability classification (OSHA 29 CFR 1910.1200, WHMIS 2015)**
Not flammable
NFPA Rating: 0 - Minimal  1 – Slight  2 – Moderate  3 – Serious  4 – Severe

Health 1  Flammability 1  Instability 0  Special Hazards: None

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal precautions: Restrict access to area until completion of clean-up. All persons dealing with clean-up should wear the appropriate chemically protective equipment.

Protective equipment: Refer to Section 8 for additional information on acceptable personal protective equipment.

Emergency Procedures: This product does not contain chemicals requiring EPA notification for spills. In case of a chemical spill, call the emergency telephone number listed in Section 1. US CERCLA Reportable quantity (RQ): None reported.

Methods and materials for containment and cleaning up: Ventilate area of release. Stop spill or leak at source if safely possible. Contain product with inert absorbent material, preventing it from entering sewer lines or waterways. Gather up spilled material and place in suitable container for later disposal (see Section 13). Residual of product, while still wet, can be cleaned up with warm soapy water. Notify the appropriate authorities as required.

Prohibited materials: Avoid strong oxidizing agents

Environmental precautions: Do not allow product to enter drains or waterways. Do not allow material to contaminate ground water system.

Reference to other sections: See Section 13 for disposal information.

SECTION 7 – HANDLING AND STORAGE

Safe handling procedures: Observe good hygiene standards. Wash thoroughly after handling. Do not get in eyes, on skin, or on clothing. Avoid repeated or prolonged skin contact. Wear protective clothing to prevent skin contact. Promptly remove any clothing that becomes contaminated. Clean contaminated clothing before reuse. Keep container tightly closed.

Storage requirements: Store in a cool, dry, place. Store away from heat and open flame. Avoid storing in direct sunlight. Store in original container. Keep tightly closed when not in use. Do not reuse empty container without commercial cleaning or reconditioning.

Incompatible materials: See Section 10.

Special packaging materials: Always keep in containers made of the same materials as the supply container.

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Permissible Exposure Limits: No exposure limits have been established for the product itself. Below are exposure limits for the components in the product.

<table>
<thead>
<tr>
<th>Ingredients</th>
<th>CAS #</th>
<th>ACGIH TLV TWA</th>
<th>ACGIH TLV STEL</th>
<th>OSHA PEL TWA (oil mist)</th>
<th>OSHA PEL STEL</th>

</tr>
</tbody>
</table>

Engineering Controls: Use general or local exhaust ventilation to maintain air concentrations below recommended exposure limits. Ventilation should effectively remove and prevent buildup of any vapor or mist generated from the handling of this product.

Personal Protection Equipment

Eye / face protection: Safety glasses must be worn when using this product. Additionally, goggles or a face shield is recommended if splashing is possible.

Skin protection: Wear chemical resistant protective clothing and impervious gloves. Glove materials such as nitrile rubber or Viton (fluorocarbon rubber) are recommended. Consult with the glove manufacturer regarding breakthrough time for the components listed in Section 3.
Body protection: Where extensive exposure to product is possible, use resistant coveralls, apron and boots to prevent contact.

Respiratory protection: Under normal conditions of use with adequate ventilation, respiratory protection should not be necessary. If work process generates excessive quantities of vapor or dust, or exposures in excess of any PEL, wear an appropriate organic vapor respirator.

Site safety equipment: An eyewash station and safety shower should be made available in the immediate working area.

General hygiene considerations: Avoid contact with eyes, skin and clothing. Wash hands after handling. Remove contaminated clothing and wash carefully before reuse. Clean all equipment and clothing at end of each work shift.

| Explosion data: Sensitivity to mechanical impact / static discharge | Not expected to be sensitive to mechanical impact or static discharge.

### SECTION 10 – REACTIVITY AND STABILITY INFORMATION

Reactivity: Does not react.

Stability: Stable under the recommended storage and handling conditions prescribed.

Hazardous reactions: Hazardous polymerization does not occur.

Conditions to avoid: High temperatures.

Materials to avoid and incompatability: Oxidizing agents.

Hazardous decomposition products: None known, refer to hazardous combustion products in Section 5.

### SECTION 11 – TOXICOLOGICAL INFORMATION

**Routes of exposure:** Inhalation: YES  Skin Absorption: NO  Skin and Eyes: Yes  Ingestion: YES

**Symptoms of exposure:** See Section 4.

**Calculated Acute Toxicity Estimates for the Product**

- **Inhalation**
  - LC50 (4 hr): > 30 mg/L
  - LD50: > 3000 mg/kg

- **Oral**
  - LC50 (4 hr): > 3000 mg/kg

- **Dermal**
  - LD50: > 3000 mg/kg

**Toxicological data:** See below for individual ingredient acute toxicity data.
### SECTION 12 – ECOLOGICAL INFORMATION

**Environmental effects**

The product should not be allowed to enter drains or water courses, or be deposited where it can affect ground or surface waters.

- Ecotoxicity: No data available.
- Biodegradability: No data available.
- Bioaccumulative potential: No data available.
- Mobility in soil: No data available.
- PBT and vPvB assessment: No data available.
- Other adverse effects: No data available.

### SECTION 13 – DISPOSAL CONSIDERATION

**Handling for disposal**

Handle waste according to recommendations in Section 7.

**Methods of disposal**

Dispose in accordance with all applicable federal, state, provincial and local regulations. Contact your local, state, provincial or federal environmental agency for specific rules.

**Packaging**

Handle contaminated packaging in the same manner as the product.

**RCRA**

For disposal of unused or waste material, check with local, state and federal environmental agencies.

### SECTION 15 – REGULATORY INFORMATION
**Canadian Information:**
This product has been classified according to the hazard criteria of the Hazardous Products Regulations (HPR). This SDS contains all of the information required by the HPR.
Canadian Environmental Protection Act (CEPA) information: All ingredients listed appear on either the Domestic Substances List (DSL) or the Non-Domestic Substances List (NDSL).

**US Federal Information:**
TSCA: All listed ingredients appear on the Toxic Substances Control Act (TSCA) inventory.

CERCLA Reportable Quantity (RQ) (40 CFR 117.302): None reported.

SARA TITLE III: Sec. 311 and 312, SDS Requirements, 40 CFR 370 Hazard Classes:
  Immediate (Acute) Health Hazard.
Under SARA Sections 311 and 312, the EPA has established threshold quantities for the reporting of hazardous chemicals. The current thresholds are 500 pounds or the threshold planning quantity (TPQ), whichever is lower, for extremely hazardous substances and 10,000 pounds for all other hazardous chemicals.

SARA TITLE III: Sec. 313, Toxic Chemicals Notification, 40 CFR 372: This material is not subject to SARA notification requirements, since it does not contain any Toxic Chemical constituents above de minimus concentrations.

U.S. State Right To Know Laws
California Proposition 65: See product label for information about California Proposition 65.

Other State Right to Know Laws:
