

## **HENRY® 555 LevelPro™ Self-Leveling Underlayment**

HENRY 555 packaging and/or installation photo)

**A specially-formulated, Portland cement-based, self-leveling underlayment used to smooth and flatten interior surfaces prior to the installation of floor coverings.**

- Easy to use – just mix, pour, and spread
- Sets up fast – install flooring in as little as 6 hours for ceramic tile and 16 hours for all other floor covering
- Use over a wide variety of surfaces

### **Applications:**

HENRY 555 LevelPro Self-Leveling Underlayment is used to provide a smooth, level surface for the installation of new flooring.

### **Use For:**

Smoothing interior floors over properly prepped concrete (old or new), wood, terrazzo, ceramic tile, and adhesive residues on concrete.

### **Trowel Recommendations:**

Henry spreader or gauged rake
